

## **EUGENE W. BOECKMAN**

2594 N. Manning Road  
El Reno, OK 73036

(405) 642-4609 Cell  
[eboeckman57@gmail.com](mailto:eboeckman57@gmail.com)

### **SUMMARY**

Diversified Engineer with extensive field and office experience in production, completion and drilling operations, supervision, construction, and management. Adaptable, dependable and willing to apply my skills to achieve optimum results.

### **PROFESSIONAL EXPERIENCE**

**Bays Exploration, OKC,** (EB Consulting) December 2015-May 1, 2015

Engineer in charge of Drilling, Completion. Production and Pipelines (Contract with EB Consulting)

Engineer in charge of wells in South Central OK, Planning workovers and completions, resolving pipeline pressure problems.

**Apache Energy Corp,** Tulsa OK April 2014-January 2015

**Sr. Drilling Engineer,**(in house consultant.thru Brammer Engineering)

Engineer in charge of rigs drilling Lower Marmaton, Cleveland, Tonkawa and Cottage Grove Horizontal wells in Western OK and Texas.

**Chesapeake Energy,** Oklahoma City, OK

**2011-2013**

**Sr. Drilling Engineer**

Engineer in charge of rigs in Western OK and the Texas Panhandle drilling Horizontal Cleveland, Tonkawa, and Marmaton Horizontal wells.

- Design and supervise Drilling programs, select vendors, audit costs.
- Involved in numerous bid programs to secure pricing and volume discounts
- Worked with Baker Hughes to enhance bit performance through rock strength analysis
- Decreased Spud to Spud time by over 30% in one year.
- Mentor Engineer 1s and field engineers.

**Chaparral Energy,** Oklahoma City, OK

**2010-2011**

**Assistant Operations Manager (contract)**

Supervisor in charge of rigs in Oklahoma and Texas

- Managed consultants and company drilling foremen on 8 rigs drilling horizontal and vertical Mississippi and Cleveland wells in OK and TX
- Co-ordinate operations with engineering and geology to drill wells efficiently
- Implement new technology to enhance drilling practices

**Linn Energy, LLC, Oklahoma City, OK**

**2007 – 2010**

**Senior Staff Engineer, Advisor Engineer**

Engineer in charge of writing AFEs, Drilling and Completion Procedures and supervising drilling and completion of wells in Oklahoma, Texas and Kansas.

- Cut drilling and completion costs by 22%
- Decreased spud to first sales on Central Midcon wells by 30% through combined efforts and planning with service companies
- Implemented use of multi-well frac pits for Wheeler Co fracs.
- In charge of new well completions and re-completions for the first year of production.

**Dominion E & P, Oklahoma City, OK**

**2004 – 2007**

**Senior Staff Engineer, Advisor Engineer**

Drilling and Completion Engineer in charge of rigs and completions in various areas of Oklahoma and the Texas Panhandle.

- Prepared AFE's, Drilling Prognosis' and Completion Procedures for new wells, bid drilling rigs, fracs, cement and other services for operations.
- Completed new wells, monitored production to determine when additional zones and workovers needed to be added
- Acted as interim Drilling Manager supervising Superintendents, Drilling Foremen, Drilling Engineer, Drilling Techs, Regulatory Analysts and Consultants.

**EB Consulting, Yukon, OK**

**2003 - 2004**

**Consultant**

In house Engineering and field work covering most areas of operations.

- Completed new wells and supervised workovers for various companies in Oklahoma, Texas and Louisiana.

**XTO Energy, Fort Worth, TX**

**1986 – 2002**

**Production Superintendent**

**1998 - 2002**

Managed daily operations, production, workovers and budgeting of 625 wells in Oklahoma, Texas, Kansas and Wyoming. Supervised 5 Production Foremen, 17 Lease Operators and 2 secretaries.

- Increased production in the East Texas Division from 87MMCFPD to 200MMCFPD by improving techniques and introducing new techniques.
- Reviewed well files finding opportunities for workovers.
- Improved secondary recovery methods to lower operating costs. Outperformed forecast by 10%.
- Helped design and construct gathering system for Freestone County, TX development

**Field Operations Engineer**

**1994-1998**

- Designed, coordinated and implemented multi-stage completion procedures on new wells, generating a 25% cost reduction and wells on production 10-14 days quicker

- Advised Production Foremen and Engineers on critical and high priority workovers.
- Negotiated discounts of up to 85% from contractors for multi-well packages.

**Production Foreman**

**1986-1994**

- Supervised Lease Operators and monitored production and operations of 149 wells. ● Implemented new rod and tubing handling techniques, reducing failures by 85%
- Trained Lease Operators to recognize production trends and predict problems
- Optimized secondary recovery replacing pumping units with plunger lift systems.
- Drilled and completed new wells. Supervised construction of tank batteries and saltwater gathering and disposal system

**Ladd Petroleum Corp., Denver, CO**

**1979 - 1986**

**Production Foreman**

- Supervised pumpers, workover rigs and roustabout crews working on leases.
- Developed and implemented cost saving methods, which increased the profitability of marginal wells during low price periods.
- Supervised workovers and recompletions to enhance production.

**EDUCATION**

**Bachelor of Science** - Petroleum Engineering Technology  
Oklahoma State University, Stillwater, OK

**PROFESSIONAL DEVELOPMENT**

**BOP Certification:** 1987 – 1998, 2006, 2013  
O'Brian, Goins and Simpson Drilling School, Houston, TX: 1991
