9422 Three Stone LN

Tomball, TX 77375

Phone (832) 368- 6419 Email: [raymond\\_sama@yahoo.com](mailto:raymond_sama@yahoo.com)

**OBJECTIVE:** To obtain a challenging position as a Petroleum and Natural Gas Engineer

## **EDUCATION**

- Bachelor of Science Petroleum and Natural Gas Engineering West Virginia University, August, 2006
- Dean's Honor List
- 10 years of Continuous Training in Oil Field Courses

## **EXPERIENCE**

07/2006- 12/2015

### **Baker Hughes. (BJ Services Company)**

- Excellent working knowledge on Cementing and Completing of Convention & Unconventional Reservoirs
- Determining and designing primary and remedial Cementing procedures along with installation of tubular and packers.
- Recommending and selecting appropriate equipment for cementing to achieve customers completion objectives
- Preparing cost estimates for various Cementing and Completion procedures
- Laboratory testing and Quality control of drilling, Cementing and Completion fluids
- Designing Cementing and Completion procedures for horizontal and multilateral wells.
- Assimilating and Modeling Cementing and Completion well performance with provided well data
- Performing Simulation Technologies(for example, acidizing, fracturing and other treatments base on reservoir diagnostics)
- Optimizing Completion and work over designs with excellent knowledge on Acidizing, Cementing & Hydraulic Fracturing
- Training and mentoring new hire engineers

05/2003 – 08/2005

### **Schlumberger, Houston, TX and Duncan, OK**

Petroleum Engineer Intern

- Oil and Gas Industry applications
- Formation Evaluation and Well logging.
- Production Enhancement as related to Schlumberger
- Field work on drilling, production and well logging.
- Checked and calibrated Equipments before and after jobs.
- Oilfield economics

## **CIVIC ACTIVITIES**

- Society of Petroleum Engineers.(SPE)
