SUMMARY

A motivated and results-driven engineering technician specializing in the oil and gas industry. Possesses demonstrated technical expertise in data gathering and analysis, database administration, map creation, reporting and presentations, budgeting, capital forecasting, SEC reporting, quarterly close, and AFE evaluation. Develops and maintains economic cases, performs economic runs for acquisitions and divestitures, and imports data from various internal and public sources. Proficient in Aries, PEEP, Harmony, Petra, Spotfire, IHS, MS Access, and Excel.

EXPERIENCE

DEVON ENERGY – Oklahoma City, OK

Reservoir Technologist 7, September 2014 – April 2016

Supported Reservoir Engineers, Reservoir Supervisor, and Reservoir Manager in the Rockies business unit. Imported and analyzed competitor data, prepared competitor analysis and OBO tracking reports, performed various economic sensitivities, prepared acquisition data for analysis, built and maintained cases in Harmony and PEEP, and created stick maps for development plans.

EOG RESOURCES, INC. – Houston, TX

Engineering Associate, August 2013 – September 2014

Worked in company headquarters supporting Reserves Manager and Reservoir Engineers on SEC annual reserve reporting and ASC360 quarterly close process. Updated economic input parameters for 10,000+ properties in Aries via global editing and MS Access. Responsible for analyzing midstream/marketing data to assign price deducts to all company properties by contract or area. Worked with Reservoir Engineers in annual evaluation of LOE for SEC reserve reporting. Supported VP of Engineering on company scorecard evaluation.

DEVON ENERGY – Oklahoma City, OK

Reservoir Technologist 6, April 2013 – August 2013

Supported Reservoir Engineers and Reservoir Manager in the Rockies business unit. Prepared quarterly presentations, assisted with quarterly budgeting process, Built and ran PEEP economic cases for exploration and development drilling. Provided economic results for AFE approvals.

EOG RESOURCES, INC. – Oklahoma City, OK

Sr. Engineering Technician, November 2006 – March 2013

Lead Reservoir Technician for OKC office's development in the Mid Continent area. Supported Reservoir Engineers, Reservoir Manager, and General Manager. Built and ran Aries economic cases for exploration and development drilling. Maintained and updated Aries database to reflect changes in price, expense, ownership, acquisitions, and divestitures via global editing and MS Access. Provided economic results for AFE approvals and acquisition and divestiture evaluations. Worked directly with General Manager to develop annual division budget plan and scorecard.

Sr. Production Assistant, May 2004 – November 2006

Contract Employee, October 2003 – May 2004
