Richmond, TX 77406-1276

### Positions Held

•Engineering & Project Management for Onshore/ Offshore:

1. Completions
2. Well Intervention
3. Production Operations
4. Wellbore Decommissioning

•Site Supervisor for Completions Gravel-Packs & Frac-Packs

•Site Supervisor for offshore well work using slickline, Eline, snubbing units and coiled tubing units

•Gulf of Mexico Assistant Off-shore Operations Manager

•Development Production Engineer

•Acquisition & Divestiture Engineer

•Gulf of Mexico Planning & Evaluation Manager

•Joint Interest Non-Operating Representative

•Author: 3-OTC Deepwater Plug & Abandonment special session papers

•Author/Presenter for World 2012 Plug & Abandonment Conference

•Region Risk Engineer

•Region Lead Corrosion Engineer

•Onshore Production Facilities Engineer

•Oil Spill Coordinator for 17 years

•Operator Representative on IPAA and OOC

•Reservoir Engineer for East Texas and Carthage Fields

A proven and highly effective leader with over 35 years experience managing major projects, programs and resources valued at more than \$700 million within the major oil & gas producers and for numerous independents in the industry. Successfully led teams to complete a broad range of projects, on time and under budget, proving the effectiveness of my leadership to shareholders, senior management, board directors and other stakeholders.

### Work History

- (Sept. 2014-Dec. 2014) Reagan Consulting/Sierra-Hamilton—Petrofac (Mexico)- Reviewed PEMEX fields operated by Petrofac & created an asset retirement obligation report for the operated fields.
- (April 2014–Sept. 2014) Reagan Consulting/Sierra-Hamilton- APEX Oil & Gas Inc. – Design, Plan & Manage the Permanent Abandonment, flushing of flowline and sales lines and caisson removal for an East Cameron area well
- (March 2014-April 2014) Reagan Consulting/Hamilton Engineering - Wapiti Energy—Design & Plan a 6 onshore LA & TX recompletions/production optimization projects;
- (March 2013-March 2014) Reagan Consulting/Hamilton Engineering - ENI US Operating—Design & Plan a 20 well P&A program for their Gulf of Mexico arena;
- (May 2012 - October 2012) Reagan Consulting - Energy XXI —Plan & executed a 13 well P&A program for the Gulf of Mexico shelf waters; Train & mentor younger engineers to take control of the 2013 program; Served as Interim Operations Engineer for production operations & well intervention work
- (Oct. 2011-May 2012) Reagan Consulting/Hamilton Engineering - El Paso E&P Co. LP—Plan & execute a P&A program in the Utah—Altamont Field; Advise on deep So. Texas well decommissioning Mentor younger engineers on Deep South Texas P&A /rigless well intervention and work with on the Annual ARO Rpt.
- (Feb. 2011-Oct. 2011)Reagan Consulting/Hamilton Engineering - Nexen Petroleum U.S.A. Inc.—Plan & execute P&A/idle iron program
- (May 2010-Feb. 2011)Reagan Consulting Inc.-BP Alternate Energy Group – Research CO<sub>2</sub> Affects on Primary Cement Jobs to Improve Wellbore Integrity
- (2006-May 2010)Express Energy Services - Design recompletions/plug and abandonment procedures and rigless well intervention for Apache Oil and Gas, ExxonMobil , Energy XXI, McMoran and other E&P companies
- (2003-2006)BWVWC – Design plug and abandonment procedures and rigless well intervention for Apache Oil and Gas Corporation, Stone Energy, Newfield, Hydro/Spinnaker, ERT, BP, Chevron, Marathon, ConocoPhillips, El Paso and other E&P companies
- (1999-2003) As president of Reagan Consulting Inc., I exceeded the expectations of various corporations:
  1. BP Exploration & Production – Designed and managed the production operations and well intervention work in a shelf Gulf of Mexico field that arrested the production decline (2000-2002); Define, plan and manage well intervention work for the GOM Shelf Group (2004-2005).
  2. Coastal Oil & Gas Corporation – Designed and managed completions and recompletions for Gulf of Mexico high pressure gas operations.
  3. WINMAR Consulting Services – Planned and documented plugging and abandonment/salvage work of Gulf of Mexico wells for ConocoPhillips, BP Exploration and Production-GOM Shelf, Nexen offshore Nigeria, Chevron/Texaco offshore California and assembled 2 major divestiture data rooms for Unocal .
  4. Energy Virtual Partners (EVP) – Planned drilling and completion operations strategy for the start-up investment/production company.
  5. EEX – Authored three Offshore Technology Conference technical papers and presentations for a deepwater special session.
  6. Sandia Technologies Inc. – Site Supervision of Class I disposal well inspections & workovers for DuPont Corporation
- (1977 to 1999) Cities Service/OXY USA Inc. - I held the following positions with increasing responsibility within the Fortune 500 environment of \$11 billion Cities Service/Oxy USA Inc.
  1. Engr. Advisor - East Texas Asset Group, 1998 - 1999. Evaluated properties for acquisition and divestiture (valued from \$10 million to \$200 million). Proposed, evaluated and economically justified field projects.
  2. Engr. Advisor - LA/MS Asset Group Operations, 1997 - 1998. Supervised two horizontal development projects in the Louisiana operations area. Ensured safety, environmental and regulatory compliance.
  3. Engr. Advisor - Southern Region Facilities Engineering, 1996 – 1997. Finalized the OXY USA Inc. Risk Engineering Design Guides. Region Safety, Environmental and Risk Engineering (SERE) Team Chairman.
  4. Engr. Supervisor & Engr. Advisor - Gulf of Mexico Operations, 1991 – 1996. Reduced offshore operating expenses by 37%, a savings of \$4.5 million. Recommended transportation and shorebase sharing agreements.
  5. Lead Corrosion Engineer - Southern Region, 1989 – 1991. Managed corrosion programs for both all region oil and gas operations along with natural gas liquid plants and pipelines. Organized the regulatory reporting.
  6. Asst. Oper. Mgr. & Engr. Advisor - Gulf of Mexico Operations, 1985 – 1989. Created the first field data capture system for the region. Served as expert witness in successful litigation resulting in \$6 million award.
  7. Planning & Evaluation Manager - Gulf of Mexico Region, 1983 – 1985. Brought operational realism to project and lease acquisition economics. Formulated first limited partnership for region's offshore area.
  8. Region Petroleum Engineer - Gulf of Mexico Region, 1981 – 1983. Determined feasibility and approved outside operated projects. Provided production and budgetary information for regional planning.
  9. Engr. I, II, Sr. and Staff Engr. - Gulf of Mexico Region, 1977 – 1981. Field supervised offshore well completions and remedial work . Prepared well cost estimates, directional and casing programs.

### Education/Affiliations

- Bachelor of Science, Petroleum Engineering, University of Texas – Austin, 1977.
- Former Member, Independent Producers Assoc. of America (IPAA);
- Former Offshore Tech Conference Subcommittee and Co-Chairman for technical sessions at three separate Offshore Technology Conferences.
- Member, Society of Petroleum Engineers (SPE) for more than 30 years.
- Actively involved in support and leadership of Boy Scouts of America; Earned the District Award of Merit, Distinguished Commissioner Award & Sam Houston Area Council Silver Beaver Award
